Members of the IU GLBTAA,

Yes, I support the addition of gender identity to Indiana University's non-discrimination clauses and would be an advocate for its adoption. I believe that all students at Indiana University have a fundamental right to feel welcome, comfortable, and safe - our non-discrimination clauses are the bureaucratic manifestation of this commitment. It also highlights the University's progressivism in important processes such as faculty recruitment.

If elected, I pledge to be easily accessible to all IU alumni and groups as your representative. I will always listen and strongly consider your stance on issues effecting the GLBT community and IU alumni at-large and pledge to bring a new activist role to the Board of Trustees - educating alumni about issues facing the board and justifying every vote I make on an Internet forum.

Sincerely,  
Samuel Locke
